Request for Waiver of Section 11.11(a) of the)	
Commission's Rules)	

ORDER

Adopted: October 1, 2002**Released: October 7, 2002**

By the Chief, Technical and Public Safety Division, Enforcement Bureau:

1. In this *Order*, we grant TV Cable of Rensselaer, Inc., ("TVC of Rensselaer") a temporary, 24-month waiver of Section 11.11(a) of the Commission's Rules ("Rules") for the above-captioned cable television system. Section 11.11(a) requires cable systems serving fewer than 5,000 subscribers from a headend to either provide national level Emergency Alert System ("EAS") messages on all programmed channels or install EAS equipment and provide a video interrupt and audio alert on all programmed channels and EAS audio and video messages on at least one programmed channel by October 1, 2002.¹

2. The Cable Act of 1992 added new Section 624(g) to the Communications Act of 1934 ("Act"), which requires that cable systems be capable of providing EAS alerts to their subscribers.² In 1994, the Commission adopted rules requiring cable systems to participate in EAS.³ In 1997, the Commission amended the EAS rules to provide financial relief for small cable systems.⁴ The

¹ 47 C.F.R. § 11.11(a).

² Cable Television Consumer Protection and Competition Act of 1992, Pub. L. No. 102-385, § 16(b), 106 Stat. 1460, 1490 (1992). Section 624(g) provides that "each cable operator shall comply with such standards as the Commission shall prescribe to ensure that viewers of video programming on cable systems are afforded the same emergency information as is afforded by the emergency broadcasting system pursuant to Commission regulations" 47 U.S.C. § 544(g).

³ *Amendment of Part 73, Subpart G, of the Commission's Rules Regarding the Emergency Broadcast System, Report and Order and Further Notice of Proposed Rule Making*, FO Docket Nos. 91-171/91-301, 10 FCC Rcd 1786 (1994) ("First Report and Order"), reconsideration granted in part, denied in part, 10 FCC Rcd 11494 (1995).

⁴ *Amendment of Part 73, Subpart G, of the Commission's Rules Regarding the Emergency Broadcast System, Second Report and Order*, FO Docket Nos. 91-171/91-301, 12 FCC Rcd 15503 (1997) ("Second Report and Order").

Commission declined to exempt small cable systems from the EAS requirements, concluding that such an exemption would be inconsistent with the statutory mandate of Section 624(g).⁵ However, the Commission extended the deadline for cable systems serving fewer than 10,000 subscribers to begin complying with the EAS rules to October 1, 2002, and provided cable systems serving fewer than 5,000 subscribers the option of either providing national level EAS messages on all programmed channels or installing EAS equipment and providing a video interrupt and audio alert on all programmed channels and EAS audio and video messages on at least one programmed channel.⁶ In addition, the Commission stated that it would grant waivers of the EAS rules to small cable systems on a case-by-case basis upon a showing of financial hardship.⁷ The Commission indicated that waiver requests must contain at least the following information: (1) justification for the waiver, with reference to the particular rule sections for which a waiver is sought; (2) information about the financial status of the requesting entity, such as a balance sheet and income statement for the two previous years (audited, if possible); (3) the number of other entities that serve the requesting entity's coverage area and that have or are expected to install EAS equipment; and (4) the likelihood (such as proximity or frequency) of hazardous risks to the requesting entity's audience.⁸

3. TVC of Rensselaer filed a request for a temporary, 24-month waiver of Section 11.11(a) for the captioned cable system on June 19, 2002. In support of its waiver request, TVC of Rensselaer states that this small, rural cable system serves approximately 365 subscribers. Based on price quotes provided by EAS equipment manufacturers, TVC of Rensselaer estimates that it would cost between \$9,119 and \$11,023 to install EAS equipment at the system. TVC of Rensselaer asserts that this cost will impose a substantial financial hardship on it and provides its financial statements for 2000 and 2000 in support of this assertion. In addition, TVC of Rensselaer submits that its subscribers will continue to have ready access to national EAS information from other sources, including its cable systems. In this regard, TVC of Rensselaer notes that its subscribers currently have access to national EAS messages on approximately 48 percent of all programmed channels. TVC of Rensselaer also asserts that its subscribers will have access to EAS information through over-the-air reception of broadcast television and radio stations. Finally, TVC of Rensselaer states that it will install EAS equipment at its Rensselaer, Indiana system by October 1, 2002,, and believes that its can complete a microwave link between the Morocco and Rensselaer systems within the next two years.

4. Based upon our review of the financial data and other information submitted by TVC of Rensselaer, we conclude that a temporary, 24-month waiver of Section 11.11(a) for the captioned system is warranted.⁹ In particular, we find that the estimated \$9,119 or more cost of EAS equipment for this small cable system could impose a financial hardship on TVC of Rensselaer.

⁵ *Id.* at 15512-13.

⁶ *Id.* at 15516-15518.

⁷ *Id.* at 15513.

⁸ *Id.* at 15513, n. 59.

⁹ The waiver will extend from October 1, 2002, until October 1, 2004. We clarify that the waiver we are granting also encompasses the EAS testing and monitoring requirements.

5. We note that the Commission recently amended the EAS rules to permit cable systems serving fewer than 5,000 subscribers to install FCC-certified decoder-only units, rather than both encoders and decoders, if such a device becomes available.¹⁰ Based on comments from equipment manufacturers, we anticipate that such a decoder-only system could result in significant cost savings to small cable systems.¹¹

6. Accordingly, **IT IS ORDERED** that, pursuant to Sections 0.111, 0.204(b) and 0.311 of the Rules,¹² TV Cable of Rensselaer Inc., **IS GRANTED** a waiver of Section 11.11(a) of the Rules until October 1, 2004 for the captioned cable television system.

7. **IT IS FURTHER ORDERED** that TV Cable of Rensselaer Inc., place a copy of this waiver in its system file.

8. **IT IS FURTHER ORDERED** that a copy of this *Order* shall be sent by Certified Mail Return Receipt Requested to counsel for TV Cable of Rensselaer Inc., Christopher C. Cinnamon, Esq., Cinnamon Mueller, 307 North Michigan Avenue, Suite 1020, Chicago, Illinois 60601.
